1.	Page 4	1.3.3(b)	Frequency of visit of Third Party Agencies team may vary according to quantum of work in progress.	We understand from the scope of work that the engagement primarily involves conducting periodic Inspection Visits to project sites to ensure quality assurance of the works being undertaken. We respectfully seek confirmation from the Authority that full-time on-site deployment of key personnel is not envisaged under this assignment, and that the requirement is limited to need-based site visits and corresponding reporting. Furthermore, to help us gain a clearer understanding of the expected level of engagement, we kindly request the Authority to indicate the minimum number of Inspection Visits, including compliance checks, anticipated per project.	The frequency of visit of Third Party agency's Team will be as per Clause 7 note 1 of the RFP.
2.	Page 5	Clause o	The Agency shall certify the safety measures adopted by the contractor in the field.	It is our interpretation that the safety clause requires the Inspecting Agency to identify and document any safety-related observations and provide appropriate recommendations and suggestions, which should then be incorporated into the periodic inspection reports. We kindly request the Authority to confirm if this understanding is correct.	Yes
